

## City to Conduct Pile Driving Test in Early 2018

**OVERVIEW:** The City of San Mateo is designing a wastewater treatment plant (WWTP) upgrade. To refine the design, the City needs to drive a small number of test piles to obtain data about construction site conditions. The construction test will be conducted near the intersection of 3rd Ave and Detroit Drive, at the parcel north of the existing wastewater treatment plant (see map). This work is part of a multi-year program to upgrade the WWTP to improve service and comply with regulatory requirements to protect the environment and public health.

**WHEN:** Between mid-January to late February. Pile driving will occur between the hours of 9 am to 5 pm; other work will meet work hours identified in the City Municipal Code.

**IMPACTS:** The surrounding neighborhood may hear this work intermittently.

**CONTACT:** For questions while this work is in progress, please call (650) 727-6870 or email [info@CleanWaterProgramSanMateo.org](mailto:info@CleanWaterProgramSanMateo.org).
