UPDATE

Dale Ave Pump Station (DAPS) – Construction of Piles and Foundation and Installation of Generator starting Monday, February 12, 2024

Our contractor, Anvil Builders, Inc., will perform piling work and construction of a concrete foundation pad starting February 12, 2024. This will be followed by installation of a new generator and cabling work. The overall duration of work is anticipated to be six months. This work will be performed using a drilling machine for the piles, concrete machinery, trucks for haulage and disposal, and a large crane to install the generator. All work will be performed within the DAPS parcel. Work will occur between the hours of 8:00 AM and 5:00 PM on normal working days. Additional potential impacts may include:

- Parking restrictions on Norfolk Street and Patricia Ave. to allow temporary parking and access of construction equipment
- One lane traffic controlled by flaggers will be utilized when required
- Noise impacts due to construction equipment
- Minor vibration during piling work and construction activities

For immediate questions or more information about this work, please contact Makarand Pendse, Project Manager, at (925) 392-3726 or makarand.pendse@jacobs.com.

Your cooperation in this vital project to improve the City sewer system is greatly appreciated!
